

That Cat

Who steals the fish?
then from the fence
proclaims his utter innocence,
while washing off the evidence?

- That cat!

And who?
before the dawn is red,
disturbs you from your nice warm bed,
to see his mouse - not even dead?

- That cat!

Who?
parks himself upon the bin
to watch you planting seedlings in,
then digs the darn lot up again?

- That cat!

But who?
when you are feeling blue,
and you are going down with a dose of flu
who sneaks upstairs to comfort you?

- That cat!
